

# CHAINED SAINT

**ROB HALFORD**

"I love songs that fly out from different bands. I was listening to a band today called Chained Saint from Florida. They just dropped a track from a recent album. And what it does, a single song can draw you in towards the album experience."

## WHO WE ARE

Chained Saint is a powerhouse Gen Z quartet blending the raw intensity of '80s thrash with modern-day heaviness. Their debut album, *Blindside*, produced by William DuVall of Alice In Chains, features eight searing tracks recorded entirely to analog tape — no AI, no studio gimmicks — capturing the ferocity of a band that's all about real, unfiltered performances.
